Re: Addition to the BUB Supplemental regulations.

For clarification, please make the following change to the current 2010 BUB Supplemental Regulations.

Replace rule 2Q, page 23, which states:

"The rider has the sole responsibility of ensuring tires are rated for the appropriate speed and for inspecting the condition of tires before and after each run."

With the new rule:

"The rider has the sole responsibility of ensuring tires are rated for the appropriate speed and for inspecting the condition of tires before and after each run."

As a result of the rapid evolution of technology and the increased speed that it brings, it is recommended that when choosing tires for the event, the rider choose a set that is rated for speeds higher than the class record. Due to the changing technology of tires it is also recommended that if the rider has any questions he/she should contact the tire manufacture to ensure that they are using a tire that meets the speed requirements needed. Riders may also contact BUB Racing at (530) 477-7490 with questions regarding tires and how to locate special tires.

A handwritten signature in black ink, appearing to read 'Kevin Crowther'.
